

# COMMUNITY ART

You have been chosen to make an artwork for your community! Use this page to brainstorm where and what you will create!

## WHAT ARE SOME ISSUES YOU SEE IN YOUR COMMUNITY?

What things are you passionate about and want to share with others? What changes would you like to see, big or small? Think of 3 or more topics and write them below!

---

---

## IMAGES

Use the space below to brainstorm words, symbols, and images that relate to your favorite topic.

Then sketch out thumbnails of your ideas and star your favorites.

If you need more room, use the back of this page or your sketchbook!

## PLACES

Consider where you would like to place your work. Which places would you like to see community artwork? Which areas do you interact with frequently / mean something to you? The more options the better!

Near school - think of 2 + places

Near your home – think of 2 + places

Other – think of 2 + places

Once you've written down some ideas, circle your top 3 choices!

## FINAL LOCATION

**Choose one of your top three locations. Why is this the best choice for your work?**

Consider:

- Your target audience aka who will see it
  - Why you think this topic is important to share with your community
    - How the space relates to your topic
    - The presence or absence of other art in the area
  - The impact you want your artwork to have on the community
- Etc.

**Use the space below to map out your ideas and answers to these questions. Also include other important information about your topic, community, artwork ideas, materials, and more. You'll use this later to help write your rationale, so be nice and thorough! Use the back of this page if needed**
